Report Overview

Industrial PVC hoses are flexible, lightweight hoses made from PVC (polyvinyl chloride) material, commonly used in various industrial applications for the transfer of fluids, chemicals, and gases. These hoses are known for their durability, resistance to abrasion, and flexibility, making them suitable for a wide range of industries such as construction, agriculture, manufacturing, and mining. Industrial PVC hoses come in different sizes, lengths, and configurations to meet specific application requirements, including suction hoses, discharge hoses, and pressure hoses. They are designed to withstand harsh operating conditions and are often reinforced with rigid PVC helix, synthetic yarn, or steel wire for added strength and durability.
