Inflatable surfboard is a new type of surfing equipment, which combines portability and good surfing performance, providing more convenience for surfing enthusiasts. Inflatable surfboard can be folded into a very small size when not inflated, which is easy to carry and store. It can be easily put into the trunk of a car, a travel backpack or even a suitcase. This allows surfing enthusiasts to conveniently take it to various surfing locations, whether it is a remote beach, a river in the mountains or a travel destination abroad.
