### Report Overview

Inflatable packaging offers more bundle securing and leaves no deposit on the products resulting in the neat and clean delivery of the products. Inflatable are easy to operate as inflatable packaging does not cause paper cuts or dryness to the hands. Furthermore, inflatable packaging conforms itself to shape of the packed object providing efficient protective solution. Furthermore, another important factor that tends to drive the market share of inflatable packaging is that it provides ESD (electro-static discharge) packaging to delicate electronic products. Inflatable packaging prevents static charge from getting accumulated on the surface of the films, thus making inflatable packaging preferred solutions among end users.
