Abstracts

In the insurance business process service market, the main services include policy sales, underwriting, claims, customer service and other links. Among them, policy sales are the most important link, and insurance products are promoted to potential customers through various channels. Underwriting is the insurance company's risk assessment, underwriting, premium calculation and other operations for customers. Claims settlement means that after an insurance accident occurs, the insurance company provides the customer with corresponding compensation and protection services according to the contract. Customer service is to provide customers with consultation, information inquiry and other services throughout the policy life cycle.

The global Insurance Business Process Services market size was estimated at USD 8561.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 12.40% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Insurance Business Process Services market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.
