Report Overview

Integrated HR Service Delivery Solutions (IHRSDS) are software platforms that provide a holistic way for organizations to manage their HR shared-service operations and communications while delivering “content in context” to employees and managers. These platforms typically include features such as ticketing, content and knowledge management, incident routing, SLA monitoring, single sign-on (SSO) into transactional systems, content delivery via manager/employee self-service portals, digital HR document management and business process management (BPM) tools. These tools usually integrate with administrative HR applications and may also link to enterprise portals and identity management applications. IHRSDS are often marketed as an HR knowledge base/portal solution with an integrated case management application.

This report provides a deep insight into the global Integrated HR Service Delivery Solutions market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.
