Report Overview

Intimate wipes are pre-moistened, disposable cleansing cloths specifically formulated for use on sensitive areas such as the genital and perineal regions. Designed to maintain hygiene, freshness, and pH balance, these wipes often contain gentle, hypoallergenic ingredients like aloe vera, chamomile, or lactic acid, avoiding harsh chemicals such as alcohol, parabens, or synthetic fragrances that could cause irritation. They cater to a range of consumer needs, including post-exercise freshness, menstrual care, postpartum recovery, and general daily hygiene, with products often segmented by gender-specific formulations (e.g., wipes for women, men, or unisex use).
