Abstracts

Granted Patents and trademarks require maintenance to keep them ?alive? so that the rights in the invention can be enforced. A large part of that maintenance includes payment of renewal fees, also called ?annuities? or ?taxes? in some parts of the world, and even ?continuation? fees under certain circumstances. The timing of their commencement, deadlines for payment and amount differ greatly among countries, so it?s important for patentees to understand renewal requirements for budgeting purposes and to avoid causing a patent or application to lapse. Due to the complexity of requirements for patent and trademark renewals and the risks associated with making an error, many patentees and attorney firms use the services of specialist external renewal companies, with many such providers on offer. These companies assume responsibility for timely payment of applicable renewals fees in each jurisdiction of their client?s patents. External renewal providers, which do not provide additional attorney services, can be a very cost-effective solution for ensuring payment of renewals.

The global IP Renewals Services market size was estimated at USD 1080.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.50% during the forecast period.
