## Abstracts

IP Trading Cards refer to collectible and tradable card products themed around well-known intellectual properties (IP) such as anime, comics, games (ACG), movies, TV shows, sports celebrities, musical artists, and brand icons. Each card typically features specific characters, scenes, items, autographs, or commemorative elements, offering both collectible and monetary value. IP trading cards appeal not only to young enthusiasts but also to adult collectors and investors, with rare cards sometimes commanding high market prices. Driven by the rise of global fandom culture, the popularity of ACG content, and the integration of technologies like NFTs (Non-Fungible Tokens), the IP trading card market is rapidly expanding. It is now a vibrant sector that includes conventions, competitions, auctions, and community exchanges, playing an increasingly significant role in the cultural consumption and investment landscape.

The global IP Trading Cards market size was estimated at USD 4000.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 10.00% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global IP Trading Cards market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global IP Trading Cards market.
