Jujube seed extract is a natural plant ingredient extracted from the seeds of the jujube tree, which is rich in bioactive substances. It mainly contains saponins, flavonoids, and a variety of amino acids and vitamins. It is widely used in health care products, cosmetics and pharmaceuticals because of its antioxidant, sedative and sleep-promoting effects. Jujube seed extract is often used in traditional Chinese medicine to relieve insomnia, anxiety and nervous tension. It is regarded as a natural sleep aid and mood regulator. In recent years, it has become increasingly popular in modern health products. Jujube seed extract has attracted widespread attention in the modern health field due to its rich bioactive ingredients and significant health benefits.
