Report Overview:

K-12 is the mixture of primary and secondary levels of education that students are given between kindergartens through 12th grade. K-12 Tutoring refers to the Tutoring of kindergartens to high school students. In the United States, the K-12 education sector is comprised of approximately 15,600 public school districts across the 50 states and 132,000 public and private elementary and secondary schools. The U.S. K-12 education market is highly decentralized and is characterized by complex content adoption processes.

The growing demand for customized learning will offer immense growth opportunities. Conventional tutoring services incur overhead costs associated with amenities such as classrooms, equipment, and related facilities. Vendors are leveraging the rapid penetration of mobile phones and tablets and the increasing network connectivity to offer online tutoring programs. Online tutoring also provides flexibility to learners through self-paced learning methods.

The Global K-12 Tutoring Market Size was estimated at USD 846.51 million in 2023 and is projected to reach USD 3452.33 million by 2029, exhibiting a CAGR of 26.40% during the forecast period.

This report provides a deep insight into the global K-12 Tutoring market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, Porter’s five forces analysis, value chain analysis, etc.
