## Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Kovar Alloy competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. In 2024, global sales of Kovar alloy reached 10,373 tons, with an average selling price of US\$25,388 per ton. Kovar alloy (4J29) is a Fe-Ni-Co based constant expansion alloy, typically composed of 54% Fe, 29% Ni, and 17% Co. Its coefficient of thermal expansion is approximately  $4.5 \times 10^{-6}$  in the range of 20-450 °C. It expands and contracts almost synchronously with borosilicate glass and Al<sub>2</sub>O<sub>3</sub> ceramics, thus enabling highly airtight "glass-metal" or "ceramic-metal" seals. Kovar alloy (4J29) uses Fe-Ni-Co alloy as its raw material, with a typical composition of 28.5-29.5% Ni, 16.8-17.8% Co, and the balance Fe, while limiting impurities such as C, Mn, and Si. Nickel and cobalt are high-priced strategic metals, accounting for approximately 46% of the alloy's weight. Their price fluctuations directly determine material costs, typically accounting for 40%-60% of the total cost of bars, plates, and strips. Subsequent processing requires vacuum induction melting (VIM) and electroslag remelting (ESR) to ensure purity, followed by homogenization annealing, multi-pass cold rolling, and slitting. The entire process—processing, heat treatment, and surface finishing—accounts for approximately 35% of the cost. In Q4 2025, the market reference price for cold-rolled strip was 450-800 RMB/kg, with thinner strips being more expensive, and its price fluctuating monthly with LME nickel and cobalt prices.

The global Kovar Alloy market size was estimated at USD 263.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 10.30% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Kovar Alloy market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights.
