Report Overview

LCD signage is a type of digital signage. Digital displays use technologies such as LCD, LED and Projection to display content such as digital images, video, streaming media, web pages, weather data, restaurant menu, or text. They can be found in public spaces, transportation systems, museums, stadiums, retail stores, hotels, restaurants, and corporate buildings etc., to provide wayfinding, exhibitions, marketing and outdoor advertising.

Digital sign displays may be LCD or plasma screens, LED boards, projection screens or other emerging display types like interactive surfaces or organic LED screens (OLEDs).
