## Abstracts

Liveboard Insurance is an insurance product designed specifically for ship owners who "take their ship as their home" (i.e. live on a ship for a long time), and is used to cover the property losses, liability risks and personal protection needs that may be faced when living, using and mooring on a ship. Compared with ordinary ship insurance, its coverage is more in line with the particularity of "living on a ship", taking into account the ship itself, the living facilities and the life risks of the ship owner on the ship.

The global Liveboard Insurance market size was estimated at USD 462.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 6.80% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Liveboard Insurance market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Liveboard Insurance market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status.
