Report Overview

A magnetic core base drill press is a portable drilling machine with a magnetic base (either electromagnetic or permanent magnet). It can use twist drill bits, annular cutters, milling cutters, and other rotary cutters. With suitable bits it can also tap threads, ream, and countersink. Its combination of a stable magnetic base and low RPM help resist or reduce torque forces created by large diameter bits. Magnetic core drilling presses with reversible motor and variable speed controls can also perform operations like tapping, countersink and reaming. Magnetic core drill press with cross table base and can also perform light milling.
