## Abstracts

Magnetic fake eyelashes are semi-permanent cosmetic enhancements designed to adhere to the natural lash line using small, flexible magnets rather than traditional glues or adhesives. These products typically consist of two pieces—one placed above the natural lashes and one below—that snap together magnetically, offering a reusable and often more hygienic alternative to conventional false lashes. They are marketed toward consumers seeking convenience, reduced risk of allergic reactions, and ease of application and removal, positioning them as a premium segment within the broader false eyelash market. The product appeals to both everyday makeup users and beauty enthusiasts looking for innovation in cosmetic accessories.
