## Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Maltodextrin for Personal Care Products competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Maltodextrin is a polysaccharide obtained through the partial hydrolysis of starch, and it is widely used in various food and personal care products. As a white powder that is colorless, tasteless, and easily soluble in water, maltodextrin is primarily used in personal care products as a thickener, stabilizer, moisturizer, and conditioning agent. Due to its mild nature, it enhances the texture of products, making creams, shampoos, body washes, and other personal care items smoother and easier to apply. In the personal care industry, maltodextrin is mainly used to improve the feel of products, provide moisturizing effects, increase product stability, and extend shelf life. For example, in cosmetics, maltodextrin is commonly found in creams, lotions, and toners, where it helps to create a smooth application experience and enhance skin hydration. In hair care products, it improves the quality of foam and helps make the hair feel smoother, enhancing the user experience. With the increasing demand from consumers for natural, gentle, and non-irritating ingredients, the market demand for maltodextrin in personal care products is steadily growing. As a natural-derived additive, maltodextrin can replace some synthetic chemicals, meeting the consumer demand for healthy beauty products and presenting a broad market prospect. In 2024, the global maltodextrin for personal care products market is forecasted to produce around 250,000 tons, with a weighted average selling price (ASP) of \$800 per ton. Maltodextrin is widely used in personal care products due to its excellent moisturizing properties, stability, and skin-friendly characteristics, especially in skincare, cosmetics, shampoos, and body care products. As consumer demand for natural and functional personal care products increases, the demand for maltodextrin in this sector is expected to continue to rise. In

the personal care industry, the market development opportunities for maltodextrin are closely tied to several factors. First, the growing consumer demand for natural and gentle ingredients, particularly in cosmetics and skincare, is a key driver. As consumers become more aware of chemical ingredients and seek to avoid them, many are turning to non-irritating, natural components, creating a large market space for maltodextrin in personal care products. Additionally, the ongoing innovation in the personal care industry, with the development of new formulas and technologies, has further increased the demand for maltodextrin. For example, with an increasing desire for more delicate and gentle textures in skincare and hair care products, maltodextrin is gaining favor among brands as an ingredient that enhances texture and moisturization.

**Market Challenges, Risks, & Restraints** Despite the promising market outlook for maltodextrin in the personal care industry, there are several challenges and risks. First, while maltodextrin is derived from natural sources, its production still relies heavily on bulk starch raw materials, making it vulnerable to fluctuations in raw material prices. These cost fluctuations may affect the production costs of maltodextrin and subsequently the pricing and profit margins of the final products. Second, as demand for organic and natural ingredients grows, some consumers may be skeptical about the use of non-organic maltodextrin, especially in premium beauty and organic skincare brands. Moreover, maltodextrin, as a polysaccharide, could potentially cause mild irritation to sensitive skin, which must be considered during product development.

**Downstream Demand Trends** In terms of downstream demand, the growing consumer focus on skincare, hair care, and cosmetics with enhanced functionalities is driving the demand for high-quality, multi-functional personal care products. Maltodextrin plays a crucial role in improving the texture and stability of these products. It is widely used in high-end skincare products that focus on anti-aging, moisturizing, and whitening effects, where it adds value and enhances the user experience. Additionally, with the rise of male and younger consumer segments demanding personalized and innovative beauty products, the potential applications of maltodextrin in customized skincare and innovative products are expanding.

The global Maltodextrin for Personal Care Products market size was estimated at USD 300.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.00% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Maltodextrin for Personal Care Products market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Maltodextrin for Personal Care Products market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Maltodextrin for Personal Care Products market.

### **Global Maltodextrin for Personal Care Products Market: Market Segmentation Analysis**

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.

### **Chapter Outline**

Chapter 1 mainly introduces the statistical scope of the report, market division standards, and market research methods.

Chapter 2 is an executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the Maltodextrin for Personal Care Products Market and its likely evolution in the short to mid-term, and long term.

Chapter 3 makes a detailed analysis of the market's competitive landscape of the market and provides the market share, capacity, output, price, latest development plan, merger, and acquisition information of the main manufacturers in the market.

Chapter 4 is the analysis of the whole market industrial chain, including the upstream and downstream of the industry, as well as Porter's five forces analysis.

Chapter 5 introduces the latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 6 provides the analysis of various market segments according to product types, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 7 provides the analysis of various market segments according to application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 8 provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and capacity of each country in the world.

Chapter 9 shares the main producing countries of Maltodextrin for Personal Care Products, their output value, profit level, regional supply, production capacity layout, etc. from the supply side.

Chapter 10 introduces the basic situation of the main companies in the market in detail, including product sales revenue, sales volume, price, gross profit margin, market share, product introduction, recent development, etc.

Chapter 11 provides a quantitative analysis of the market size and development potential of each region in the next five years.

Chapter 12 provides a quantitative analysis of the market size and development potential of each market segment in the next five years.

Chapter 13 is the main points and conclusions of the report.

## Key Reasons to Buy this Report:

Access to date statistics compiled by our researchers. These provide you with historical and forecast data, which is analyzed to tell you why your market is set to change

This enables you to anticipate market changes to remain ahead of your competitors

You will be able to copy data from the Excel spreadsheet straight into your marketing plans, business presentations, or other strategic documents

The concise analysis, clear graph, and table format will enable you to pinpoint the information you require quickly

Provision of market value data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry concerning recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market from various perspectives through Porter's five forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come

## **11 MALTODEXTRIN FOR PERSONAL CARE PRODUCTS MARKET FORECAST BY REGION**

11.1 Global Maltodextrin for Personal Care Products Market Size Forecast

11.2 Global Maltodextrin for Personal Care Products Market Forecast by Region

11.2.1 North America Market Size Forecast by Country

11.2.2 Europe Maltodextrin for Personal Care Products Market Size Forecast by Country

11.2.3 Asia Pacific Maltodextrin for Personal Care Products Market Size Forecast by Region

11.2.4 South America Maltodextrin for Personal Care Products Market Size Forecast by Country

11.2.5 Middle East and Africa Forecasted Sales of Maltodextrin for Personal Care Products by Country

## **12 FORECAST MARKET BY TYPE AND BY APPLICATION (2026-2035)**

12.1 Global Maltodextrin for Personal Care Products Market Forecast by Type (2026-2035)

12.1.1 Global Forecasted Sales of Maltodextrin for Personal Care Products by Type (2026-2035)

12.1.2 Global Maltodextrin for Personal Care Products Market Size Forecast by Type (2026-2035)

12.1.3 Global Forecasted Price of Maltodextrin for Personal Care Products by Type (2026-2035)

12.2 Global Maltodextrin for Personal Care Products Market Forecast by Application (2026-2035)

12.2.1 Global Maltodextrin for Personal Care Products Sales (K MT) Forecast by Application

12.2.2 Global Maltodextrin for Personal Care Products Market Size (M USD) Forecast by Application (2026-2035)
