Report Overview

Medical cabinets, also known as medical storage cabinets, can be stationary, mobile, or may hang on the wall, and they're constructed from varying materials such as wood laminate, PVC tubing, or heavy-gauge metal for narcotics cabinets designed to safely store Schedule medications. Used in medical facilities and medical offices, some cabinets come with stainless-steel sinks, plastic bins, computer work-station areas, and a various array of drawers and shelves.

A medication cabinet provides regulation storage of medications in the general practice, hospital or in care facilities, as these tend to have large quantities of specimens for their patients. The medicine cabinet, like the dressings cabinet, is among the standard equipment of many medical facilities and surgeries.
