Report Overview

As men's swimwear has grown, the category has given rise to new transitional shorts, suitable for wearing both in the water and at the dinner table, which have attracted new consumer demographics and, in turn, new entrants to what had, for a long time, remained a relatively static marketplace largely dominated by lumbering surfwear leviathans with products targeting teenagers and lacking in aesthetic sophistication.

The global Mens Swimwear market size was estimated at USD 2487 million in 2023 and is projected to reach USD 3992.47 million by 2032, exhibiting a CAGR of 5.40% during the forecast period.

North America Mens Swimwear market size was estimated at USD 709.42 million in 2023, at a CAGR of 4.63% during the forecast period of 2024 through 2032.

This report provides a deep insight into the global Mens Swimwear market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.

The analysis helps the reader to shape the competition within the industries and strategies for the competitive environment to enhance the potential profit.
