Abstracts

Metering as a Service (MaaS) is a new metrology service model based on the Internet of Things (IoT), cloud computing, and smart sensing technologies. It migrates the data collection, calibration, analysis, and management functions of traditional physical measuring instruments (such as electricity meters, water meters, gas flow meters, and weighing instruments) to the cloud. Users subscribe to high-precision, traceable metrology data services on demand, eliminating the need for purchasing and maintaining hardware. It is widely used in smart energy, Industry 4.0, carbon emission monitoring, and shared laboratory scenarios. The upstream of its industry chain includes high-precision sensor chips, communication modules, edge computing gateways, and national metrology benchmark institutions. The midstream consists of technology companies or metrology institutes providing MaaS platforms, which must possess metrology compliance (compliant with JJF/JJG standards), data security, and remote calibration capabilities. The downstream covers industries with high requirements for metrological accuracy and compliance, such as power, water, chemical, pharmaceutical, and smart manufacturing. Due to the integration of hardware, software, and metrology technology services, and the subscription-based revenue model, the industry's overall gross profit margin is between 50% and 65%. With scaling up, data value-added services can further enhance profitability.

The global Metering as a Service (MaaS) market size was estimated at USD 13266.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.70% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Metering as a Service (MaaS) market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive

landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Metering as a Service (MaaS) market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Metering as a Service (MaaS) market.

Global Metering as a Service (MaaS) Market: Market Segmentation Analysis

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.

Key Benefits of This Market Research:

Industry drivers, restraints, and opportunities covered in the study

Neutral perspective on the market performance

Recent industry trends and developments

Competitive landscape & strategies of key players

Potential & niche segments and regions exhibiting promising growth covered

Historical, current, and projected market size, in terms of value

In-depth analysis of the Metering as a Service (MaaS) Market

Overview of the regional outlook of the Metering as a Service (MaaS) Market:

Chapter Outline

Chapter 1 mainly introduces the statistical scope of the report, market division standards, and market research methods.

Chapter 2 is an executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the Metering as a Service (MaaS) Market and its likely evolution in the short to mid-term, and long term.

Chapter 3 makes a detailed analysis of the market's competitive landscape of the market and provides the market share, capacity, output, price, latest development plan, merger, and acquisition information of the main manufacturers in the market.

Chapter 4 is the analysis of the whole market industrial chain, including the upstream and downstream of the industry, as well as Porter's five forces analysis.

Chapter 5 introduces the latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 6 provides the analysis of various market segments according to product types, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 7 provides the analysis of various market segments according to application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 8 provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and capacity of each country in the world.

Chapter 9 shares the main producing countries of Metering as a Service (MaaS), their output value, profit level, regional supply, production capacity layout, etc. from the supply side.

Chapter 10 introduces the basic situation of the main companies in the market in detail, including product sales revenue, sales volume, price, gross profit margin, market share, product introduction, recent development, etc.

Chapter 11 provides a quantitative analysis of the market size and development potential of each region in the next five years.

Chapter 12 provides a quantitative analysis of the market size and development potential of each market segment in the next five years.

Chapter 13 is the main points and conclusions of the report.

Key Reasons to Buy this Report:

Access to date statistics compiled by our researchers. These provide you with historical and forecast data, which is analyzed to tell you why your market is set to change

This enables you to anticipate market changes to remain ahead of your competitors

You will be able to copy data from the Excel spreadsheet straight into your marketing plans, business presentations, or other strategic documents

The concise analysis, clear graph, and table format will enable you to pinpoint the information you require quickly

Provision of market value data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

1 RESEARCH METHODOLOGY AND STATISTICAL SCOPE

1.1 Market Definition and Statistical Scope of Metering as a Service (MaaS)
1.2 Key Market Segments
  1.2.1 Metering as a Service (MaaS) Segment by Type
  1.2.2 Metering as a Service (MaaS) Segment by Application
1.3 Methodology & Sources of Information
  1.3.1 Research Methodology
  1.3.2 Research Process
  1.3.3 Market Breakdown and Data Triangulation
  1.3.4 Base Year
  1.3.5 Report Assumptions & Caveats

2 METERING AS A SERVICE (MAAS) MARKET OVERVIEW

2.1 Global Market Overview
2.2 Market Segment Executive Summary
2.3 Global Market Size by Region

3 METERING AS A SERVICE (MAAS) MARKET COMPETITIVE LANDSCAPE

3.1 Company Assessment Quadrant
3.2 Global Metering as a Service (MaaS) Product Life Cycle
3.3 Global Metering as a Service (MaaS) Revenue Market Share by Company (2020-2025)
3.4 Metering as a Service (MaaS) Market Share by Company Type (Tier 1, Tier 2, and Tier 3)
3.5 Headquarters, Areas Served, and Product Types of Major Players
3.6 Metering as a Service (MaaS) Market Competitive Situation and Trends
  3.6.1 Metering as a Service (MaaS) Market Concentration Rate
  3.6.2 Global 5 and 10 Largest Metering as a Service (MaaS) Players Market Share by Revenue
  3.6.3 Mergers & Acquisitions, Expansion

4 METERING AS A SERVICE (MAAS) VALUE CHAIN ANALYSIS
