Abstracts

Nicotine Gummies and Gums are a smoking cessation aid designed to help people consume a small dose of nicotine without tobacco and other chemicals found in cigarettes. Instead, when the person feels a craving, they can eat a tasty gummy that will help subside the cravings for a time. The global pharmaceutical market is 1475 billion USD in 2022, growing at a CAGR of 5% during the next six years. The pharmaceutical market includes chemical drugs and biological drugs. For biologics is expected to 381 billion USD in 2022. In comparison, the chemical drug market is estimated to increase from 1005 billion in 2018 to 1094 billion U.S. dollars in 2022. The pharmaceutical market factors such as increasing demand for healthcare, technological advancements, and the rising prevalence of chronic diseases, increase in funding from private & government organizations for development of pharmaceutical manufacturing segments and rise in R&D activities for drugs. However, the industry also faces challenges such as stringent regulations, high costs of research and development, and patent expirations. Companies need to continuously innovate and adapt to these challenges to stay competitive in the market and ensure their products reach patients in need. Additionally, the COVID-19 pandemic has highlighted the importance of vaccine development and supply chain management, further emphasizing the need for pharmaceutical companies to be agile and responsive to emerging public health needs.

The global Nicotine Gummies and Gums market size was estimated at USD 459.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.30% during the forecast period.
