Smoking cessation Aids, a product that Aids individuals in quitting smoking, essentially replaces smoking, though, without the harmful effects of smoking. The NRT (Nicotine Replacement Therapy) Smoking Cessation Aids Market is driven by the increasing global awareness of the health risks associated with smoking and the growing desire among individuals to quit tobacco use. NRT products, such as nicotine gum, patches, and lozenges, provide a safer and controlled way to manage nicotine withdrawal and cravings during the process of quitting smoking.
