## Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Nutraceutical Gummies competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Nutraceutical Gummies are one of the fastest growing nutraceutical segments across Europe, North America and Asia. It usually contains various vitamin, DHA, Omega-3, Probiotics, minerals and other functionalities actives. Nutraceutical Gummies have wide range of applications, such as vitamin and minerals gummies, DHA and Omega-3 Gummies, Probiotics Gummies, Plant Extract Gummies, etc. And vitamin and minerals gummy was the most widely used area which took up about 63.04% of the global total market size. The process of producing functional gummies using starch molds is a traditional process. The starch in this process can be recycled and dust in the production workshop needs to be controlled, so although this process is well suited for large-scale production, starch-free processes have become more popular in the market in recent years. Church & Dwight (CHD), SCN BestCo, Sirio Pharma, Amapharm, Guangdong Yichao, Aland, Herband, Jinjiang Qifeng, TopGum, PharmaCare, etc. are the key suppliers in the global functional gummies market. Top 10 took up more than 60% of the global market.

The global Nutraceutical Gummies market size was estimated at USD 1549.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.20% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Nutraceutical Gummies market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging

development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Nutraceutical Gummies market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Nutraceutical Gummies market.

### **Global Nutraceutical Gummies Market: Market Segmentation Analysis**

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.
