## Abstracts

**Market demand:** With the development of economy and progress of society, enterprises and employees are paying more and more attention to occupational health.

**Occupational health consulting services** can meet the needs of enterprises and employees in occupational disease prevention and health management, so the market size continues to expand.**Policy support:** The government has continuously increased its support for the field of occupational health and introduced a series of relevant policies and measures. For example, the "Occupational Disease Prevention and Control Plan" issued by the National Health Commission clearly states that it is necessary to improve the occupational health management system, carry out occupational health surveillance, and strengthen occupational disease hazard evaluation and risk assessment. These policies and measures provide strong guarantee for the development of the occupational health consulting service industry.

**Technological progress:** With the continuous development of information technology, the technical level of the occupational health consulting service industry continues to improve in data collection, risk assessment, health management and other aspects. For example, the application of big data and artificial intelligence technology makes the analysis of occupational health data more accurate and comprehensive, providing more scientific methods and means for the prevention and treatment of occupational

diseases.**Improved social awareness:** As society's attention to occupational health continues to increase, companies and employees' awareness of occupational disease prevention and health management is also constantly improving. This provides the occupational health consulting service industry with broader development space and more opportunities.

The global Occupational Health Consulting Services market size was estimated at USD 1300.0 million in 2025 and is projected to grow at a compound annual growth rate

(CAGR) of 6.60% during the forecast period.
