Abstracts

Online shopping platforms for the elderly are e-commerce platforms designed specifically for middle-aged and older adults, aiming to meet their consumer needs across food, clothing, housing, transportation, healthcare, hobbies, and entertainment. These platforms not only offer age-friendly interfaces (such as font enlargement, voice assistance, and simplified user processes), but also optimize the senior user experience through product selection, content recommendations, and after-sales service. Their core value lies in breaking the physical limitations of traditional retail, enabling seniors to shop conveniently and safely at home while improving their quality of life and digital engagement. With the rise of the silver economy, these platforms are gradually shifting from "technology-based senior living" to "service segmentation," emphasizing personalized recommendations, health-focused approaches, and emotional care.

The global Online Shopping Platform for The Elderly market size was estimated at USD 78000.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 9.10% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Online Shopping Platform for The Elderly market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.
