Report Overview

An organic buckwheat pillow is a pillow filled with organic buckwheat husks instead of cotton or synthetic cotton and other soft materials. Pillows and cushions are often used while sitting or sleeping to provide support and rest for the head, neck and cervical spine. Buckwheat pillow originated in Japan and is a traditional Japanese pillow, also commonly known as 'buckwheat river'. Buckwheat or *Fagopyrum esculentum* is actually a grain-like fruit seed that grows mainly in the Asia-Pacific region and has been eaten by people for decades, even as animal feed. However, in the more recent past, buckwheat husks have been used as pillow stuffing because of its various benefits, especially for the neck and spine. Organic buckwheat pillows are extremely durable and provide firm support for the head, neck and spine. Under compression, these pillows are elastic, yet provide firm and contoured support that helps with pressure relief and proper spinal alignment, gradually allowing the body to relax and sleep. Plus, these pillows provide the support you need in any sleeping position, are cost-effective, and have a shelf life of up to 3 years. There are many other benefits of organic buckwheat pillows, such as it reduces the likelihood of snoring and sleep apnea by relaxing the neck and back muscles, which opens up the airways for easy breathing. Additionally, it has been shown to help relieve migraines because it supports soft tissues and provides gentle pressure on certain acupuncture points on the head and neck. These specific pressure points are known to regulate proper blood flow in the brain and release relaxation hormones. Plus, organic buckwheat pillows are dust-mite and hypoallergenic because it keeps the proper airflow fresh and away from bugs and insects.
