Report Overview

OTC (over-the-counter) eyedrops are non-prescription eye solutions used to relieve various common eye issues such as dryness, redness, itching, and irritation. These drops are readily available without the need for a doctor's prescription and often used for temporary relief of symptoms caused by allergies, environmental factors, or prolonged screen use. OTC eyedrops come in different types, including artificial tears for lubrication, decongestants to reduce redness, and antihistamines to treat allergy-related itching. Some formulations are preservative-free, making them suitable for sensitive eyes or frequent.
