Report Overview

Outdoor double-layer hiking tents refer to tents that can be camped outdoors. Usually, the functions include rainproof, sunscreen, windproof, breathable and temperature insulation. Structurally, hiking tents are mainly triangular (also known as herringbone), dome (also known as yurt) and house (also known as family). Triangular hiking tents are mostly double-layer structures, which are more complicated to support, and have better wind resistance, heat preservation, and rain resistance, and are suitable for mountaineering and adventure.
