Report Overview

Outside Waistband (OWB) Holsters are a type of holster designed to be worn on the outside of the waistband, typically attached to a belt. These holsters are popular among gun owners for their ease of access, comfort, and ability to accommodate a wide range of firearms. OWB holsters are commonly used by law enforcement officers, military personnel, and civilians who carry firearms for self-defense or recreational purposes. They are available in various materials such as leather, Kydex, and nylon, offering different levels of durability, retention, and comfort. OWB holsters come in different styles, including pancake holsters, paddle holsters, and duty holsters, catering to the diverse needs and preferences of gun owners.

The market for Outside Waistband Holsters is experiencing steady growth driven by several key factors. One of the primary market trends is the increasing demand for concealed carry holsters as more individuals obtain permits to carry firearms for personal protection. OWB holsters are favored for their comfort and accessibility, making them a popular choice among concealed carry permit holders. Additionally, advancements in holster design and materials have led to the development of innovative OWB holster options with enhanced features such as adjustable retention, quick-release mechanisms, and compatibility with a wide range of firearm models. Moreover, the growing popularity of shooting sports and recreational shooting activities has contributed to the rising demand for OWB holsters among firearms enthusiasts. Overall, the market for Outside Waistband Holsters is expected to continue expanding as more consumers prioritize safety and convenience in carrying their firearms.
