Report Overview

Packaged ice melter is a product designed to quickly and efficiently melt ice and snow on driveways, sidewalks, roads, and other surfaces in cold weather conditions. Typically composed of salts like calcium chloride, magnesium chloride, or sodium chloride, ice melters work by lowering the freezing point of water, making it easier to clear ice buildup. Some formulations also include environmentally friendly and pet-safe ingredients to reduce the risk of harm to plants, animals, and surfaces. Packaged ice melters are popular among homeowners, businesses, and municipalities for maintaining safe, ice-free pathways during winter, with demand rising during colder months, particularly in regions prone to heavy snowfall and ice formation.
