### Report Overview

Peelable nail polish refers to water-based nail polish, also known as daily disposable nail polish. The film-forming substance is mainly polyurethane emulsion, and a small amount of acrylate emulsion is added at the same time. Although these two emulsions have good film-forming performance, high strength, and adhesion can meet the requirements, their hydrophilicity is relatively strong. After a long time, the bubbles will fall off, or part of them will fall off.

This report provides a deep insight into the global Peel Off Nail Polish market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.

The analysis helps the reader to shape the competition within the industries and strategies for the competitive environment to enhance the potential profit. Furthermore, it provides a simple framework for evaluating and accessing the position of the business organization.
