Abstracts

Nutritional supplements for pets are products that provide a source of recognized essential nutrients, like calcium or vitamin A. They are intended to work as supplements and ensure the nutritional completeness of the diet in pets. The supplements are being marketed not only as pills/powders but also as ingredients in pet foods/gravies/snacks. The other alternative delivery formats that are gaining shares, due to the preference for pet palatability, include gels and pastes, as well as gravies and powders, designed to be added to pet food.

The global Pet Supplements And Nutraceuticals market size was estimated at USD 11520.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.25% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Pet Supplements And Nutraceuticals market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Pet Supplements And Nutraceuticals market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational
