Report Overview

The piston rod and arm rod are used to connect the sail. Traditionally, the twisted rope consists of a small piece of rope spliced or sewn in or around the bolt rope, but it can also be made of metal wire. The piston rod is different from the traditional one and is a variant of the fixed sail. There are many piston rods of different shapes and sizes, including sewing and pressing. All ships that use sails need simple tools to fix the sails.
