### Report Overview

Tarpaulin, or tarp, is a heavy-duty, waterproof fabric, originally made of tarred cotton canvas and used by sailors. Today, tarps are commonly made of plastics such as polyethylene.

There are three main types of tarpaulin: canvas tarps, polyethylene (poly or PE) tarps, and vinyl (PVC) tarps. When compared with canvas tarps and vinyl tarps, poly tarps are the least expensive of the three. They are also waterproof and rot proof as opposed to canvas tarps which are only water resistant and may rot in very damp conditions. Poly tarps are a great choice for everyday use, and when UV treated they hold up well in extended outdoor use. However, they are not as durable as vinyl or canvas tarps.
