## Abstracts

Private Midwifery Service refers to personalized maternity care provided by qualified midwives outside the public healthcare system. These services are tailored to meet the individual needs and preferences of expectant mothers, offering continuity of care throughout pregnancy, labor, birth, and the postpartum period. Private midwifery is often chosen by women seeking a more personalized, holistic, and flexible approach to their maternity experience.

The global Private Midwifery Service market size was estimated at USD 78.5 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.10% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Private Midwifery Service market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Private Midwifery Service market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding

of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Private Midwifery Service market.
