The market for Punicalin is positioned within the broader market for natural antioxidants and health supplements.

The current market size for Punicalin in 2023 is estimated at approximately USD 8 million. With a projected compound annual growth rate (CAGR) of 7.5% from 2024 to 2032, the market is expected to reach USD 15 million by the end of the forecast period. This growth can be attributed to increasing consumer awareness of the health benefits of natural antioxidants and the rising demand for organic and plant-based products.
