Report Overview

A pyrotechnic fuse is a fuse that explodes and irreversibly disconnects electrical connections in the event of an automobile accident or collision to avoid short circuits or fires. Pyrotechnic fuses are single-use devices like conventional fuses. After the blasting disconnects the circuit, it will damage the device and cut off the high-voltage current at a safe moment. It can be used not only in electric vehicles, but also in any industrial scene that requires instantaneous circuit isolation.
