The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Quartz Blank Masks competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. In 2024, global Quartz Blank Masks production reached approximately 164.1 k Sqm, with an average global market price of around US\$15,400 per square meter.
