Report Overview

The Reflex Integration and Sensory Processing Subscription Box is a curated, recurring delivery service designed to provide therapeutic tools and structured activities that aid in the development and regulation of sensory processing abilities in children. The core feature of this product is its monthly delivery model, offering themed boxes that include sensory tools (e.g., tactile balls, weighted items, textured fabrics), illustrated activity guides, and video tutorials created by occupational therapists. These resources are tailored to promote the integration of primitive reflexes such as the Moro, ATNR (Asymmetrical Tonic Neck Reflex), and STNR (Symmetrical Tonic Neck Reflex), which are often underdeveloped in children with developmental delays. Each box typically contains 5-7 sensory items, 10+ activity prompts, and 20-30 minutes of guided video content.
