Refrigerated display cases mostly used in retail stores and food & refreshment industry, for example, general stores/hypermarkets, supermarkets, eateries and hotels and non-routine outlets. RDCs help to attract customers through an attractive visual display of food and drink products. Refrigerated Display Cases with remote refrigeration systems reduce heat and noise on the sales floor and are preferred in areas where the refrigeration system may be installed on a roof. Increasing demand for energy efficient refrigerated cases from commercial food service sector, has created the need for continuous research and development in RDC technologies. Increasing regulatory compliances and rising concerns for food safety majorly drive the refrigerated display cases market growth. Low awareness and limited adoption in less developed regions and growing environmental concerns are some factors impeding the refrigerated display case market growth. With technological advancements, leading market players are developing energy efficient RDCs in different types and designs to cater to the increasing demands of commercial food industry.
