Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Retractable Shoe Horn competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. In 2024, the global production of retractable shoehorns was estimated at 20-40 million units, with an average selling price of approximately US\$3-25 per unit and a gross profit margin of about 40%. Single-line production capacity was estimated at 1-3 million units per year. A retractable shoehorn is a shoehorn that extends in length during use and shrinks in size when stored, thanks to its retractable or foldable design. This design perfectly combines the "no-bending" convenience of long-handled shoehorns with the "portability" of short-handled shoehorns. The upstream of the retractable shoehorn industry mainly consists of suppliers of plastic particles, metal profiles, and accessories such as springs and buckles; midstream manufacturers produce finished products through injection molding, metal processing, and assembly processes; and downstream products reach consumers through home goods stores, senior citizen stores, online e-commerce, and travel product channels. The demand stems from the public's dual pursuit of portability and backless functionality: on the one hand, it comes from frequent travelers' need to save luggage space, and on the other hand, it comes from the rigid demand of the elderly, pregnant women and people with back discomfort for safe and convenient footwear. At the same time, hotels and elderly care institutions also form stable procurement to improve service experience. The overall market is driven by the trend of portable consumption and health care awareness.

The global Retractable Shoe Horn market size was estimated at USD 300.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.00% during the forecast period.
