## Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Rocking Pizza Cutter competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. The rocking pizza cutter is a special pizza cutting tool with a curved blade and a two-handed operation design. It is usually composed of a stainless steel blade and an ergonomic handle. Its biggest feature is that it cuts by swinging back and forth. It is especially suitable for neatly dividing large or thick-crust pizzas. This type of tool is widely used in commercial pizza kitchens, family gatherings and food booths. Some models can also be used as dough dividing or pastry processing tools.
