Report Overview

Kitchen cabinets are the built-in furniture installed in many kitchens for storage of food, cooking equipment, and often silverware and dishes for table service. Appliances such as refrigerators, dishwashers, and ovens are often integrated into kitchen cabinetry. There are many options for cabinets available at present. Ready-to-assemble (RTA) cabinets are units that arrive in a kit. They provide all of the materials and tools necessary for the consumer to assemble the cabinets on site. Ready-to-assemble cabinets are manufactured cabinets that are assembled by the homeowners. Rather than hiring a cabinetmaker to fill a custom order, homeowners can purchase RTA cabinets for their kitchens or bathrooms. The kits contain everything the consumer needs to put the cabinets together, including wood, screws and hinges. RTA kits make it easy and affordable for homeowners to update their kitchens with new cabinets.
