Abstracts

Primarily crafted from leather or durable synthetics, satchel and saddle bags are structured, handheld or shoulder-worn accessories characterized by a flat base, a single or dual flap closure, and often a top handle with an adjustable strap. Saddle bags, a specific subset, traditionally draw design inspiration from equestrian equipment, featuring a curved, asymmetrical shape that mimics the look of bags slung over a horse's saddle, and are typically worn crossbody. Both styles prioritize a blend of classic aesthetics and practical utility, offering organized compartments for personal items, making them versatile for both casual and professional use, and distinguishing themselves from backpacks or totes through their distinct silhouettes and historical design roots.
