Report Overview

Screw top pails are industrial-grade containers designed for the secure storage and transportation of liquids, powders, or granular materials, featuring a threaded lid that ensures a tight seal to prevent leaks, contamination, or spillage. These pails are commonly made from high-density polyethylene (HDPE) or metal, offering durability, chemical resistance, and reusability, making them suitable for industries such as chemicals, food processing, agriculture, paints, and lubricants. The screw top mechanism enhances convenience and safety, allowing for easy opening and closing while maintaining product integrity during handling and shipping. Available in various sizes, typically ranging from 1 to 6 gallons, screw top pails cater to both small-scale and bulk storage needs.
