Report Overview

A spice is a dried seed, fruit, root, bark, or vegetable substance primarily used for flavoring, coloring or preserving food. Because they tend to have strong flavors and are used in small quantities, spices tend to add few calories to food. Many spices, however, can contribute significant portions of micronutrients to the diet.

The global Seasoning and Spices market size was estimated at USD 18190 million in 2023 and is projected to reach USD 24363.27 million by 2032, exhibiting a CAGR of 3.30% during the forecast period.

North America Seasoning and Spices market size was estimated at USD 5011.72 million in 2023, at a CAGR of 2.83% during the forecast period of 2024 through 2032.

This report provides a deep insight into the global Seasoning and Spices market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.
