## Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Semiconductor PFA Connector competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. PFA connector is a fluid connection component made of high-performance fluoropolymer perfluoroalkoxy resin (PFA), used to connect PFA pipes. Its key features include excellent chemical inertness, high temperature resistance, high purity and reliable sealing. The semiconductor manufacturing process has extremely high requirements on the purity of materials. PFA joints are not only corrosion-resistant, but also effectively prevent the penetration of contaminants, ensuring high precision and high purity requirements in wafer manufacturing, chip packaging and other aspects. Semiconductor PFA Connector are important connecting components used in the semiconductor manufacturing process, especially when it comes to gas transmission, chemical liquid transportation, corrosive substance pipeline connection, etc. PFA connector is a joint made of PFA plastic with excellent chemical corrosion resistance, high temperature resistance and good mechanical strength. In 2024, global Semiconductor PFA Connector production reached approximately 841 k units, with an average global market price of around US\$ 82 per unit. The annual production capacity of a single production line is 10,000 units, with a gross profit margin of about 35%. Upstream raw materials: PFA resin, auxiliary materials. Downstream applications: Wafer manufacturing, chip packaging. Direct material costs account for about 50%-60%; direct labor costs account for about 10%-15%; manufacturing expenses account for about 25%-35%.

The global Semiconductor PFA Connector market size was estimated at USD 69.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of

7.50% during the forecast period.
