Report Overview

Shirataki are translucent, gelatinous Japanese noodles made from the corm of the konjac yam. They are part of traditional Japanese cuisine, but they are also appreciated by people with allergies or intolerances to wheat, gluten or eggs, or by people on a diet because of their low caloric value. Shirataki noodles are long, white noodles. They are often called miracle noodles or konjac noodles. They're made from glucomannan, a type of fiber that comes from the root of the konjac plant. Konjac grows in Japan, China and Southeast Asia.

This report provides a deep insight into the global Shirataki Noodle market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.
