Report Overview

Silk stockings are a type of hosiery made from silk fibers, known for their smooth texture, elasticity, and luxurious feel. Traditionally associated with high-end fashion, they are often used for formal occasions or as a premium alternative to nylon or synthetic stockings. The product segment includes sheer, semi-sheer, and opaque variants, catering to different preferences for coverage and style. While historically a staple in women's wardrobes, modern iterations also appeal to niche markets, including vintage enthusiasts and consumers seeking sustainable, natural-fiber alternatives.
