## Abstracts

Skirting boards and beading are decorative and functional edge trims used in flooring installations to create a neat transition between floors and walls or other surfaces. Skirting boards cover expansion gaps and protect wall bases from scuffs, while beading (or quarter round trims) is often used to cover gaps around fixed furniture or along skirting edges. Available in materials such as MDF, wood, vinyl, or laminate, these trims enhance visual continuity and protect flooring integrity, especially in floating floor systems that require expansion allowances.
