Report Overview:

These are usually waterproof or water resistant, and insulated, with convenient pockets and other snow-specific features. A waterproof/breathable rain jacket over your fleece or wool top would be sufficient as well, though its slickness might lengthen any slides you make after a fall. The main difference between a ski jacket and a snowboard jacket is the fit. Snowboard jackets are a lot looser than ski jackets and tend to be longer in length. The extra length helps keep you warmer when you are sitting in the snow strapping your board on.

The Global Snowboard Jackets Market Size was estimated at USD 772.81 million in 2023 and is projected to reach USD 977.85 million by 2029, exhibiting a CAGR of 4.00% during the forecast period.
